T50

Push-open switch,
Ø32mm, powder coated
metal profile, 4W led
lighting.

The product can be
mounted in right or left
direction.

Levent Çirpıcı

“Today, where working and living spaces are intertwined, the table as a design element adds new representations and meanings to the spaces it is in. During this representation, work lighting and personal storage area, which are other auxiliary elements of the work area, also gain importance.

The T50 is an integrated design proposition for work and living spaces. It creates a stylish, simple and customizable space for its user with its fine structure, wide area of use, lighting and special drawers in places with many different functions such as homes, offices, hotels, libraries and schools.”
