THRONE WAVE

Utkan Kızıltuğ - Duygu Aslanel

“As the workplaces turn into more collective and open spaces, employees need private spaces where they can get away from the busy office life to think and relax. Throne Wave, which we designed considering this differentiation in offices and working culture, in addition to its 360 degree rotating feature, it also has the characteristic of a swivel rocker lounge chair with its special design mechanism. The most striking difference from classic swivel rocker lounge chairs or armchairs, it can be swung in any direction. Throne Wave which is a waiting chair that can easily adapt to your office or home with different material and color options, it is a stylish and decorative product that you can sit and enjoy for a long time on. ”

Throne Wave; creates comfortable areas for the user to rest in the office with its fluid and curved body form while turning the waiting moments into pleasure with its mechanism that can swing in every direction. **Throne Wave** chair with leather and felt upholstery alternatives; creates strong visual integrity by combining different parts with stitch details dynamically and harmoniously.
